PARKING

The entry to the underground parking is from Arnold Avenue behind Mr. Lube and opposite the public school. Follow the lane behind the Watergarden condo building and down to the underground parking. The garage door will open automatically as you approach. Spaces **C21, C22, C23, and C24** are on your left and have our signs on the fence. These spots are reserved exclusively for our patients. Do **not** park in the residential visitor spots (marked with a **V**) – you may get a ticket from the building.

There is accessible parking in the underground garage in C-19 right next to the retail elevator. Even though there is a sign on the wall that says JRCC (the community centre next door), C-19 next to the elevator or the adjacent spot is available to any of our patients with a handicapped parking permit.

Take the **retail elevator** located next to C19 up to ground level and come around to our front entrance on Yonge Street. This is the second elevator further from our parking spots at C21-24. There is also a drop off on **Yonge Street** going south right outside our office. If you prefer street parking, there is parking on the south side of **Arnold Avenue** in front of the school. We look forward to seeing you at Watergarden Dental!
